Adult Dose guidance

Start as low as possible with one night time dose, then every 4 to 12 hours as needed.

Maximum dose: 950mg THC/day per 75Kg body mass.

Once response to therapy is determined, dose and frequency should be adjusted to the lowest effective dose for the shortest duration possible to suit the individual treatment goals.

Do not use when operating heavy machinery or whilst driving. Do not use if under the age of 18 without medical consultation

Using the three capsule strengths gives you a convenient way to step up your dosage and spread it out over the day, as well as being convenient to carry around.

Examples

Daily dosage - 7.5mg - 1 yellow capsule – 3 times a day

Daily dosage - 30mg - 1 red capsule – 3 times a day

Daily dosage - 22.5mg - 1 yellow capsule and 1 green capsule– 3 times a day

At any signs of adverse reactions please stop using this product and if needed consult a trained health professional.

Storage

It is recommended that you store the capsules in cool dark place, please remember to put them in a suitable container with a sealed lid to avoid moisture in the air effecting the capsule case.
